Mrs. H. C. Robinson
Delhi, New York

My dear Mrs. Robinson:

I see by the paper that you and Dr. Robinson have returned to your Delhi home for the summer. Yes, I wonder if you have employed help for the season.

I am a teacher by profession, but am finishing Normal this June and need very much to work this summer.

I have had considerable experience in homemaking, can give good service and will be grateful for the income. I wish I might get a place in a refined home where my services were needed. I could come about the middle of June.

If you do not need help yourself, Mrs. Robinson, perhaps you can tell me of someone in town who does. I can come up to see you any-

Saturday if you desire fur-
ther information.

Very sincerely yours
Clara A. Driscoll
